

Criterion F: Feedback from client

Are you satisfied with the final product?

Yes, [the interface] is clean and easy to use.

Have the following requirements been met?

The extension will be compatible with Firefox and Chrome: Yes

Clicking on the extension icon will reveal an interface that provides the tools you asked for: Yes

This interface will have a utility for searching PDF attachments: Yes

The interface will have calculators, which are automatically filled with information from the record, but may also be used on any site: Yes

The interface will have a button to open an editor with a feature to auto-fill information from templates: No

Are there any aspects of the product you would like to be improved?

I would like to be able to enter drug dosages in mg/m²

I wish searching showed thumbnails of the documents that are found

It would be nice if there was a tool for working with growth models

When I move my mouse to enter information, sometimes I accidentally select a different tool

Have you been happy with the level of consultation throughout the development of the product?

Yes.
